

## Adult Services

A service that all men really do want to call - time & time again!

When premium rate services started in 1986 - there was one service that was an instant success from the start - adult entertainment. The demand for listening to a sexy story or to chat live to an operator was just amazing. Millions of phone calls a week were being made - since then things have not really changed - the demand is still there.

You may have thought of running your own adult services, but not known where to start. If you went out and tried to set one up on your own - you would be looking at the following costs:

### EXAMPLE ONLY

- photos of nude females / males - £100
- recorded adult message - £80/story
- artwork to advertise your services - £20

But we can supply all this to you. We offer ALL services on a shared revenue deal. We make our profit from the minutes generated on your numbers. This ensures it's in our best interest for your advertising campaign to work.

We can also supply you with a choice of adult introductions to choose from - for both the heterosexual market and the gay market. Therefore if you would like to promote a gay, lesbian, domination, nurse or gang-bang service - we will have one to suit your requirements.

The major thing to consider about running an adult service is that it does not require a great amount of work. You do not need to change messages every single day - nor change adverts every week.

When you place an advert into an adult "top shelf" magazine - the average life span is 3 years - YES 3 years.

If you currently have a web site then promoting premium rate can be an easy way to create an additional revenue stream with little effort. You can simply advertise our services via simple text or via a banner (which we can supply).
