

Opportunities

Webmasters

If you own a web page, you may have already done all the hard work in its design, set-up and promotion. If you are already getting a good few hits,

then it's ready to START EARNING YOU MONEY.

You may have thousands of people visit your web pages every week. If you promoted your own telephone information service on your page, some of your visitors would call it, and you could earn money from every call.

We will host your telephone service for FREE.

We will give you your own premium rate telephone number for FREE. We will provide everything, except for the recorded content, that would be up to you.

You could set up information lines, competitions & even Live Chat. Your service can be as simple or as sophisticated as you like, we will give you all the help you need to get things started. It really is that easy.

As well as using web pages to promote your telephone service, you can use any other media you wish. Anything that will generate calls will earn you money. The more calls you get, the more you earn - it's as simple as that.

International Markets

In addition to a wide variety of domestic tariffs, we also provide Premium Rate numbers for most Western European and English speaking markets.

All numbers can be directed at our IVR, thus enabling us to offer consolidated payments and call statistics to our customers.

In addition, many of the ready-made services are available in German and Spanish.

We are therefore able to offer many of these services on domestic premium rate in Ireland, New Zealand, USA, Australia, Canada, Germany, Austria and Switzerland.

Operators

We are always looking for broadminded people to join our team as chat line monitors.

You must be over 18, and have your own phone. You can choose the hours that suit you and we pay you weekly. The caller doesn't know who you are, or where you are, what you look like and more importantly would never get to know your phone number, so you're always in control.

To find out more and to receive an information pack call our 24-hour Job Hotline on (08700) 467767.
