What Do You Have To Do?

Very little. It's simply a matter of placing adverts in different types of media or having this as an ad-on to your existing route to market.

The great thing about this business is that you don't have any selling to do. Nor do you have to visit clients. Once your service is on line and being advertised, you can simply relax, our computers will do all the work for you. Quite literally, you will be earning money 24 hours a day, 7 days a week!

You Can Make Money Faster & More Easily Than You Ever Thought Possible! When you operate a Premium Rate Service, you can earn up to £1.00 a minute. The average call is 5 to 10 minutes long. Our computers can handle over three hundred calls at one time. There is really no limit to the income you can earn.

It's Working For Others - And It Will Work For You!

But don't take our word for it. Take a look at all the adverts you see in the newspapers, or on the internet each week offering Premium Rate Services. Week by week, the volume of advertising and the number of services multiply. This proves just how profitable this industry is. It has to be! People just could not afford to keep running these adverts week after week - unless they were earning good money.

We are also seeing premium rate being widely used on national TV (BBC, ITV & C4), this really helps the premium rate industry as more and more people are learning to trust premium rate – After all, it’s only a payment mechanism!!
